The spreadsheet, AFR2018.xls, and instructions for downloading the file will be available under the City Annual Financial Report (AFR) tab on the website along with several other helpful questions, answers and resources. ## Detailed Electronic AFR Upload Instructions (continued):

- The upload system will run a series of verifications in the beginning of the upload process. The following error messages may appear; below is a list of the possible errors and tips on how to solve the error:
  - ✓ **The file has already been submitted** – A copy of the city’s AFR has already been submitted. The Auditor of State (AOS) will need to be contacted to remove the previous upload.
  - ✓ **You may be trying to upload a file that is not an AFR file** – The file that is being uploaded doesn’t match the AFR format. Make sure you are not trying to upload a different report or budget by mistake.
  - ✓ **The file you have submitted has an invalid fiscal year** – Make sure you are using the most up-to-date AFR file from AOS.
  - ✓ **The City AFR is not correct, and appears to have been edited in Open Office** – The AFR needs to be completed in Microsoft Excel. Open Office and other spreadsheet programs do not offer the necessary password protection functions.
  - ✓ **The file submitted is missing a city name** – Input the name of the city on [All Funds P1] tab in the AFR file, save the file, and re-try the upload.
  - ✓ **You have submitted a file that does not contain Actual and Budget Expenditures** – Either Budget information is missing from [All Funds P1] tab or the Actual expenditures are missing from pages 1-5. Enter the missing information, save the file, and re-try the upload.
- If no errors are identified during the upload verification process, Upload Process: Step 2 will appear. This page will have several pieces of information pulled from the uploaded AFR. The name of the person responsible for the AFR completion should be entered along with the email address for this person. The phone number listed is pulled in from the uploaded AFR, but can be changed if necessary. Once the proper information has been entered, click  to complete the upload.
