RISK ASSESSMENT**I. BRAINSTORMING CONFERENCE**Date: _____ Date discussed
with manager: _____

Instructions: Members of the audit team are required to discuss the susceptibility of the Agency's financial statements to material misstatement due to fraud or error. The discussion should include an open exchange of ideas (brainstorming). The discussion should also emphasize the importance of exercising professional skepticism throughout the audit. The discussion may occur prior to, or in conjunction with, other audit planning procedures, but should take place each year. The manager should determine which matters are to be communicated to members of the audit team not involved in the discussion.

If the audit is a Single Audit, completion of this procedure should include consideration of both the audit of the financial statements and the federal awards.

List any additional fraud factors or conditions identified as being present. Additional factors may have been identified through inquiry of management in the entrance conference. Also, document any compensating controls.

If improper revenue recognition was not identified as a risk of material misstatement due to fraud, describe the reasons regarding how that presumption was overcome.

AREA EDUCATION AGENCY SAMPLE AEA**June 30, 2016****AUDIT STRATEGY**
RISK ASSESSMENT**IV. RESPONSE TO RISKS**

The way the auditor responds to the risks identified during the risk assessment process depends on the nature and significance of the risks identified and on the Agency's programs and controls to address such risks. The auditor should take into account the various risk assessment procedures performed, including preliminary analytical procedures, brainstorming session, information obtained about the Agency and its environment, including internal controls, fraud risk considerations and any other sources providing information about relevant risks. For single audits, the auditor should consider the risk noncompliance may cause the financial statements to contain a material misstatement. Auditors respond to the results of the risk assessment in three ways: (1) an overall response as to how the audit is conducted, (2) specific responses involving modification of the nature, timing and extent of procedures to be performed and (3) responses to further address the fraud risk of management override of controls.

1. Overall response to financial statement risks – Describe overall risks at the financial statement level that may affect many assertions and the planned response to identified risks. Examples of overall risks include weaknesses in the control environment, changes in management, motivation by management to fraudulently misstate the financial statements, etc. Appropriate responses may include (1) assignment of personnel and supervision, (2) scrutiny of management's selection and application of significant accounting principles and (3) including an element of unpredictability in audit procedures and tests.

2. Specific responses to risks – If any risks are considered significant, the risk and the auditor's response to the risk should be included in the risk assessment summary form. For less significant risks, describe your specific responses, if any, to identified risks, including modification of the nature, timing and extent of audit procedures.

AREA EDUCATION AGENCY SAMPLE AEA

AUDIT STRATEGY
RISK ASSESSMENT

3. Response to address management override of controls – Because management override of controls can occur in unpredictable ways, the risk of management override of controls is always an identified fraud risk and the auditor is required to perform certain specified procedures to respond to such risk. These procedures relate to (1) examining journal entries and other adjustments, (2) reviewing accounting estimates for biases and (3) evaluating the business rationale for significant unusual transactions.

AUDIT STRATEGY
SINGLE AUDIT

- 1) Determine Type A vs. Type B programs using the Program Identification form.
- 2) Determine the risk classification of Type A programs using the Risk Assessment form.
- 3) If necessary, determine the risk classification of Type B programs using the Risk Assessment form.

NOTE: ALL PROGRAMS ASSESSED AS HIGH RISK MUST BE AUDITED.

- The auditor is not required to identify more high-risk Type B programs than at least one-fourth the number of low-risk Type A programs.
 - When identifying which Type B programs to perform a risk assessment, the auditor is encouraged to use an approach which provides an opportunity for different high-risk Type B programs to be audited as major over a period of time.
- 4) Identify major programs and determine if the percentage of coverage rule has been met using the bottom of the Determination of Major Programs form.

Major programs must account for at least 40% of total expenditures of federal awards unless the AEA is low risk, in which case on 20% needs to be met.* The AEA is considered low risk if, for each of the prior two years, all of the following conditions have been met:

- A Single Audit is performed on an annual basis.
 - Unmodified opinions on the financial statements and the Schedule of Expenditures of Federal Awards were issued. **
 - No material weaknesses in internal control under the requirements of Government Auditing Standards (relating to the financial statements) were noted. **
 - No internal control deficiencies identified as material weaknesses were noted for all Type A programs.
 - No material non-compliance was noted for all Type A programs.
 - There were no known or likely questioned costs exceeding 5% of the program's expenditures for all Type A programs.
 - The prior two years audits must have met the report submission requirements of Uniform Guidance (reports were submitted to the federal audit clearinghouse by March 31).
 - No substantial doubt about the AEA's ability to continue as a going concern was noted.
- 5) Identify the applicable Compliance Requirements for each major program..
- * The Agency may have one or more non low-risk Type A programs and still qualify as low-risk, as long as all Type A programs meet the criteria listed. However, all non low-risk Type A programs must be audited as major programs even if the 20% rule of coverage is met by only a portion of the non low-risk Type A programs.

AUDIT STRATEGY
SINGLE AUDIT**PROGRAM IDENTIFICATION**

For programs with ARRA funding and no separate CFDA #, list the ARRA portion on a separate line and add the prefix "ARRA" – to the program name.

Federal Program	CFDA #	Federal Awards Expended	% of Total Federal Awards Expended	Type A Program (X)	Type B	
					Primary Program (X)	Relatively Small Program (X)
TOTAL						

Determine the appropriate amounts to be used as program thresholds:

<u>Type A</u>		<u>Type B</u>	
<u>Total Federal Assistance</u>	\$ _____	<u>Type A threshold</u>	\$ _____
<u>Percentage multiplier (3%)*</u>	X <u>0.03</u>	<u>Percentage multiplier (25%)</u>	X <u>0.25</u>
<u>Type A threshold: greater of \$750,000 or 3%</u>	\$ _____	<u>Type B threshold</u>	\$ _____

Relatively small Type B programs are programs less than the Type B threshold. Risk assessments are not required to be performed on relatively small programs.

* - For total federal awards less than or equal to \$100 million.

NOTE: A Single Audit is not required if total federal expenditures are less than \$750,000.

DETERMINATION OF MAJOR PROGRAMS

In order to determine major programs, complete the following steps:

- Enter Type A programs and their risk analysis from the Risk Evaluation form. For non low-risk Type A programs only, enter their percentage of total federal expenditures (from the Program Identification form) in the far right column. If there are low-risk Type A programs, proceed to the next step. If there are no low-risk Type A programs, then determine if total percentage of the non low-risk Type A programs exceeds the percentage of coverage rule. If it exceeds the minimum percentage required, the determination of major programs is complete. If the minimum percentage is not met, include additional programs as necessary to meet the percentage of coverage rule.
- Enter the high-risk Type B programs from the Risk Evaluation form limited to 25% of the number of low-risk Type A programs. For each high-risk Type B program selected, enter its percentage of total federal expenditures (from the Program Identification form) in the far right column. **NOTE: ALL PROGRAMS ASSESSED AS HIGH RISK MUST BE AUDITED.**
- Determine if the total percentages from these two steps exceed the percentage of coverage rule. If it exceeds the minimum percentage required, then the determination of major programs is complete. If the minimum percentage is not met, include additional programs as necessary to meet the percentage of coverage rule.

Examples of situations in which there may be risk of material noncompliance pervasive to the Agency's noncompliance are as follows:

AREA EDUCATION AGENCY SAMPLE AEA**June 30, 2016****SIGNIFICANT FINDINGS**
FROM THE AUDIT

IN ATTENDANCE:

<u>Agency</u>		<u>Auditor</u>	
<u>Name</u>	<u>Title</u>	<u>Name</u>	<u>Title</u>

The auditor should communicate significant findings from the audit with those charged with governance, including the following matters (AU-C 250.21, AU-C 260.12 through AU-C 260.14).

(A) Accounting Policies

Significant accounting policies used by the Agency are described in Note 1 to the financial statements. Except as noted below, no new accounting policies were adopted and the application of existing policies was not changed during the fiscal year. Except as noted below, we noted no instances where an otherwise acceptable accounting practice is not appropriate to the circumstances of the Agency.

Exceptions:

(B) Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility future events affecting them may differ significantly from those expected. We evaluated key factors and assumptions used in the significant estimates used by the Agency in determining the reasonableness in relation to the financial statements taken as a whole.

List significant estimates:

(C) Difficulties Encountered in Performing the Audit

Except as noted below, we encountered no significant difficulties in dealing with management in performing and completing our audit.

Exceptions:

SIGNIFICANT FINDINGS
FROM THE AUDIT

(D) Nonaudit Services

We have met the requirements for performing nonaudit services under paragraph 3.37 and 3.39 of the 2011 Yellow Book. Except as noted below, there were no such nonaudit services provided.

Exceptions:

(E) Uncorrected Misstatements

We have provided management with a listing of all uncorrected misstatements identified during the audit in the management representation letter. In our judgment, none of the uncorrected misstatements, either individually or in the aggregate, indicate matters that could have a significant effect on the Agency's financial reporting process.

(F) Disagreements with Management

Professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting or auditing matter that could be significant to the financial statements or the auditor's report. Except as noted below, no such disagreements arose during the course of our audit.

Exceptions:

(G) Corrected Misstatements

The following corrected misstatements were brought to the attention of management as a result of audit procedures performed:

FROM THE AUDIT

(H) Consultation with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If consultation involves application of an accounting principle to the Agency’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine the consultant has all the relevant facts. Except as noted below, there were no such consultations with other accountants.

Exceptions:

(I) Significant Issues

Significant issues arising from the audit that were discussed, or were the subject of correspondence, with management.

List any significant issues:

(J) Comments

We have provided our written comments and recommendations regarding the Agency’s financial statements and operations, including matters involving noncompliance with laws and regulations.

NOTE: Information discussed during the exit conference is confidential until the audit report is released.

AREA EDUCATION AGENCY SAMPLE AEA**June 30, 2016****ITEMS FOR COMMENT**

The following guidance should be used by the auditor to evaluate the control deficiencies identified (AU-C 265):

Definitions:

Deficiency in Internal Control – exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

Significant Deficiency – a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Material Weakness – a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis.

Reasonable Possibility – exists when the likelihood of the event is either reasonably possible (chance of future event or events occurring is more than remote but less than likely) or probable (future event or events are likely to occur).

Magnitude – refers to the extent of the misstatement that could have occurred, or that actually occurred, since misstatements include both potential and actual misstatements.

Factors affecting the magnitude of a misstatement that might result from a deficiency or deficiencies include, but are not limited to, the following:

- The financial statement amounts or total of transactions exposed to the deficiency.
- The volume of activity (in the current period or expected in future periods) in the account or class of transactions exposed to the deficiency.

Risk factors affecting whether there is a reasonable possibility a deficiency, or a combination of deficiencies, will result in a misstatement of any account balance or disclosure. The factors include, but are not limited to, the following:

- The nature of the financial statement accounts, classes of transactions, disclosures and assertions involved.
- The cause and frequency of the exceptions detected as a result of the deficiency, or deficiencies, in internal control.
- The susceptibility of the related asset or liability to loss or fraud.
- The subjectivity, complexity or extent of judgment required to determine the amount involved.
- The interaction or relationship of the control(s) with other controls.
- The interaction with other deficiencies in internal control.
- The possible future consequences of the deficiency, or deficiencies, in internal control.
- The importance of the controls to the financial reporting process.
